

ClaroRead[®] Chrome

Speak web pages, PDF files and Google Docs with highlighting in Google Chromebooks. Free in the Chrome App Store, optional upgrades for more powerful features.

- Scan from screen: draw a rectangle round any text in a page to hear it read aloud - even Google Books, inaccessible PDFs and images of text.
 - Hover over links or images to read them out or just select text you want to hear and it speaks.
 - Use word prediction to help you with getting the right correctly-spelled word when writing. Supports English, Dutch, French, German, Spanish, Polish, Norwegian and Arabic.
 - Deploy and administer across your company or school with powerful admin tools.
 - Use powerful speech recognition to dictate into your documents – faster writing with no spelling mistakes!
 - Spellcheck with tens of thousands of common dyslexic-style corrections to save you time and get your documents right. English and Swedish.
 - Homophone check for tricky words like “there” and “their” so you can relax and know you chose the right one. English and Swedish.
 - Get a complete OCR/scanning solution by adding a subscription to Claro Cloud OCR to convert any PDF into an accessible PDF, Word or text format.
- Click Play to read any web page out loud, with highlighting to let you track where you are.
 - Click Play to read your own work or any document you have opened in Google Docs and Google Slides, again with highlighting.
 - Click Play to read back accessible PDF files opened in Chrome, whether found on the web or opened from your local machine.
 - Choose from dozens of languages and voices to read different web pages in the voice you prefer.
 - Echo back letters, words and sentences as you type them to help with proofing and accessibility.
 - Turn on a coloured overly for tinting web pages to help with reading and comfort.
 - Choose the text highlight colour that helps you follow along best.
 - Read other Google Docs extensions to maximise effectiveness of all your tools.

ClaroRead Chrome and its Extras are available for schools, colleges, organisations and individuals, and have been successfully deployed to hundreds of thousands of users world-wide.

Claro[®] Chromebook Apps

Claro ScanPen Chromebook

Use Claro ScanPen to photo your printed text document, letter, test paper – then select the text with your finger (or stylus), and hear it spoken straight back to you. Read anything you see.

ClaroSpeak Chromebook

Open Word, Google Docs, PDF and ePub files. Write with support from word prediction and spellcheck. Proof and read back with high-quality voices. Produce your best work.

ClaroIdeas Chromebook

Plan and organise your ideas with ClaroIdeas Chrome, a mind mapping and idea capture study skill tool to let you think visually and in two dimensions.

ClaroPDF Chromebook

Read PDFs in ClaroPDF Chrome, a dedicated PDF reader with thumbnails, search, and reading with highlighting so you can follow the text.

Claro MagX Chromebook

Claro MagX turns your device into a powerful high definition visual magnifier and tinter. Super for anyone with vision loss or a visual impairment.
