

ClaroRead is for supporting reading, writing, study and exams.

ClaroRead is a simple, easy-to-use and flexible software program that helps you to read, write, study, sit exams, and increase your confidence. You can read any on-screen text out loud and improve your writing in Microsoft Word. ClaroRead Plus and Pro also let you read aloud scanned paper books and documents. Available on Windows, Apple Mac and Chromebook (features vary).

Reading

- Reads Microsoft Word, Adobe Reader, OpenOffice/LibreOffice, Google Chrome and Internet Explorer with speech and highlighting so you can follow the text as it is read out by high-quality human-sounding speech.
- Reads text in email, webpages, and any other program you want by selecting with the mouse, pointing with the mouse, or capturing from the screen.
- Read paper documents with scanning (OCR) in ClaroRead Plus and Pro.
- Reads English, French, German, Spanish, Portuguese, Swedish and twenty-four other languages with 80 different voices and accents so you can listen to a voice you like.
- Choose highlighting by word, by sentence, any colour, and lots of combinations so you can get just the right one for you.

Screen capture

- Make any text displayed on the screen read aloud, including online eBooks and presentations.

Scanning (OCR) – ClaroRead Plus and Pro

- Use industry-leading OmniPage technology to convert printed paper documents and image files into PDF, Word and many other formats for reading and annotation later.
- Create accessible tagged PDF files with reading order.

Writing

- Speaking spell check lets you select the word you want by hearing the alternatives.
- Support for homophones and easily-confused words like "there" and "their" and "they're". Images to help you select the correct word.
- Advanced phonetic, dyslexic and problem spelling corrections like "neel" (kneel) and "necessary".
- Speaking dictionary for any word in any program with over 300,000 English definitions.
- Listen back to text you have written - hear mistakes you can't spot when you just read.
- Hear each word or sentence as you type so you can spot mistakes immediately.

ClaroRead gives me access to a variety of reading materials, and it gives people the facility to manage whatever reading they have to do. It can make a real positive difference to a dyslexic student's life.

Jack Bow, Dyslexia support tutor and dyslexic person, London Metropolitan University

Word prediction

- Suggest words as you type to help with spelling and writing.
- Many subject-specific dictionaries.
- Phonetic prediction - type "n", see "knowledge" suggested.
- Learn new predictions as you type or train it in a particular subject.

Study skills

- ClaroCapture study tool. Capture images and text from web pages and documents to help write essays and organise references.
- Claroldeas easy-to-use mind mapping and idea capturing tool.

Screen tinting

- ScreenRuler reading ruler and screen colour tinter. Helps anyone who has problems keeping focus while reading.
- ClaroView screen colour overlay tool. Helps dyslexic students focus on the screen and read.

Exams

- ClaroRead SE can be used in exams as a computer reader. ClaroRead SE is included with all versions of ClaroRead.
